

## Information sheet

On December 2, 2005 we, the grassroots people started a blockade in the territory of Asubpeeschoseewagong (Grassy Narrows) and this blockade still stands today. This notice is to advise you that you are taking part in the destruction of our traditional territory and you are being given fair warning that this will not be tolerated.

Any negotiations will only be entertained by the true government of the Asubpeeschoseewagong territory which is the CLAN MOTHERS – signatory Indians and only with the Federal government (Not Abitibi or the provincial government).
